

# Hey neighbor,

***We've had a pretty busy year at PWNO. We've had something going on each month, from renter's rights trainings and informational community meetings to large festival-style events like Greenway Gala. We hope you enjoyed attending them because we had an absolute blast organizing them and connecting with you!***

***Our ultimate goal is to serve as a hub for resources and a space for community empowerment and self-determination. We believe in the power of local change and know that our collective power rests in the hands of you, me, and our fellow neighbors.***

***Now, as we enter 2025, community organizing remains just as important as ever. This is why the new year is the perfect opportunity to get involved with PWNO! We want to support your initiatives and goals, whether that means hosting a community cleanup, joining the board of directors, organizing a community meeting, or simply planning a way to meet and connect with the people on your street!***

***So tell us, do you have an idea for an initiative or project? From funding to supplies, PWNO wants to support you in making your goals for community organizing a reality! Email us at [info@phillipswest.org](mailto:info@phillipswest.org) to get involved and we'll see you in the new year!***

***Until then,  
PWNO***
